

SAP® Certified
SAP Business One Integration

**TRANSFORMING YOUR
LIFE SCIENCE BUSINESS**

BECOME MORE EFFECTIVE WITH BEAS MANUFACTURING

The Life sciences manufacturing industry is by far one of the most complex, precise, with highly regulated processes. With new technologies, processes and fierce competition, life science manufacturers must innovate today more than ever before, along with the pressure to lower costs.

Whether it is a challenge to comply with ever changing regulation, manage complex processes or the need to turn away from spreadsheets and manual process, pharmaceutical manufacturers should constantly look for alternatives to optimize end-to-end operations, with the use of new technology, to build a more stable and dynamic organization with Beas Manufacturing solution for SAP Business One.

Beas Manufacturing for the Life Science Industry solution expands SAP Business One to include industry-specific functions like officially regulated business processes.

It provides real time visibility into every step of the production process. It was designed with these needs in mind, while having a modular approach and offers flexible deployment as modules can be purchased and "turned on" during

appropriate phases of implementation.

Life Science manufacturers can optimize their production processes, manage quality control while providing real time traceability data.

"BEAS MANUFACTURING BASICALLY MEANS EFFICIENCY, LOW COSTS AND HIGH-QUALITY PRODUCTS AND THAT IS WHAT YOU SHOULD BE LOOKING FOR IN ORDER TO BE EFFICIENT AND PROFITABLE."

Oscar Telésforo Alvarado, General Manager, Prositter

Product highlights

- Integrated batch management and batch traceability.
- Support for legal standards and GMP guidelines (FDA, EMA, BRC, IFRA, GHS etc.) in accordance with industry-specific requirements.
- Compliance with FDA CFR 21 part 11.
- Quality assurance through complete documentation of data modifications and production and quality control data, including all testing, approval and release steps (four eyes release, electronic signature).
